

WOJCIECH JANKOWSKI

JUNIOR PYTHON DEVELOPER

PERSONAL STATEMENT

Beginner Python programmer who wants to gain new skills and experience in the IT industry. I have analytical skills, and thanks to my previous experience I can work well in a team. I gain my knowledge on online courses, e.g. Udemy, from industry literature, to later check it by solving tasks on Code Wars.

I am motivated by the possibility of personal development and the challenges I face. I will be happy to join the team of (company name), which I will be able to support with my skills, especially in the field of (excerpt from the announcement)".
